Key: G Time: 4/4

```
     G *          *    *     C          D    G     *
1    A-bide with me: fast falls the eventide
     G    D         C   G      Am          G    D     *
     The darkness deepens; Lord, with me abide
     G     D      G   *     C          E         Am    *
     When other helpers fail, and comforts flee
     D     G       Em         C   G     D     G    *
     Help of the helpless, O abide with me.

     G      *       *      *     C           D       G    *
2    Swift to its close ebbs out life's little day
     G        D          C     G    Am       G      D    *
     Earth's joys grow dim, its glories pass away
     G       D      G    *   C     E        Am   *
     Change and decay in all around I see
     D G          Em        C      G     D     G    *
     O Thou who changest not, abide with me.

     G *          *   *      C      D        G     *
3    I need Thy presence every passing hour
     G     D        C      G    Am        G          D   *
     What but Thy grace can foil the tempter's power?
     G     D        G      *   C          E         Am   *
     Who, like Thyself, my guide and stay can be?
     D        G          Em         C       G     D     G    *
     Through cloud and sunshine, Lord, abide with me.

     G *        *     *     C        D        G      *
4    I fear no foe, with Thee at hand to bless
     G     D        C         G    Am        G      D     *
     Ills have no weight, and tears no bitterness
     G      D           G       *      C           E     Am   *
     Where is death's sting? where, grave, thy victory?
     D G        Em         C      G     D     G    *
     I triumph still, if Thou abide with me.

     G     *         *      * C        D        G     *
5    Hold Thou Thy Cross before my closing eyes
     G      D            C       G    Am        G       D      *
     Shine through the gloom, and point me to the skies
     G         D        G        *    C             E        Am    *
     Heaven's morning breaks, and earth's vain shadows flee
     D   G          Em        C       G     D     G    *
     In life, in death, O Lord, abide with me.
