    In purer lives Thy service find

     heard

    Beside the Syrian sea

    Let us, like them, without a word

     G        C        G    *
3   O Sabbath rest by Galilee
     Am       C       D    *
    O calm of hills above
          C      *         D
    Where Jesus knelt to share with
     *
     Thee

    The silence of eternity
     G      C       D    *
    Interpreted by love!

    Interpreted by love!

        G          C        G      *
4   With that deep hush subduing all
       Am         C           D     *
    Our words and works that drown
       C       *        D       *
    The tender whisper of Thy call
      Em          C        D
    As noiseless let Thy blessing
     Bm
     fall
      G          C      D    *
    As fell Thy manna down
      Am         C      G    *
    As fell Thy manna down.

        G          C        G     *
5   Drop Thy still dews of quietness
       Am       C          D     *
    Till all our strivings cease
       C         *          D
    Take from our souls the strain
       *
     and stress
       Em       C        D          Bm
    And let our ordered lives confess
       G       C       D    *
    The beauty of Thy peace
       Am      C       G    *
    The beauty of Thy peace.

6   Breathe through the heats of our
      *
     desire

    Thy coolness and Thy balm

     D           Bm
     wind, and fire
      G              C         D    *
    O still, small voice of calm

    O still, small voice of calm.
