O Sacred Head Now Wounded

Key: C Time: 4/4 Tune: PASSION CHORALE

```
    F      *         G   C
1 O sacred Head, now wounded
       Am         E7             Am
  With grief and shame weighed down
      F       *     G   C
  Now scornfully surrounded
       Am            E7    Am
  With thorns, Thine only crown
      G         F        C *
  How pale thou art with anguish
       F     *        Am
  With sore abuse and scorn
      G         C      D  G
  How does that visage languish
        F        G         C
  Which once was bright as morn.

       F        *          G  C
2 What Thou, my Lord, hast suffered
        Am      E7       Am
  T'was all for sinners' gain
       F        *        G   C
  Mine, mine was the transgression
      Am        E7     Am
  But Thine the deadly pain
      G      F        C *
  Lo, here I fall, my Saviour
       F   *         Am
  'Tis I deserve Thy place
       G     C        D G
  Look on me with Thy favour
       F       G      C
  Vouchsafe to me Thy grace.

       F        *       G  C
3 What language shall I borrow
     Am          E7      Am
  To thank thee, dearest Friend
      F         *     G  C
  For this, thy dying sorrow
      Am   E7       Am
  Thy pity without end?
      G       F       C *
  Oh, make me thine forever
      F        *        Am
  And should I fainting be
       G      C      D G
  Lord, let me never, never
    F       G       C
  Outlive my love to thee.

    F         *    G C
4 Be near when I am dying
      Am       E7       Am
  Oh, show thy cross to me
      F      *       G  C
  And for my rescue, flying
       Am        E7     Am
  Come, Lord, and set me free!
       G         F       C  *
  These eyes, new faith receiving
      F     *         Am
  From Jesus shall not move
     G       C      D  G
  For one who dies believing
      F       G           C
  Dies safely, through thy love.
