O Sacred Head Now Wounded

Key: F Time: 4/4 Tune: PASSION CHORALE

```
    Bb     *         C   F
1 O sacred Head, now wounded
       Dm         A7            Dm
  With grief and shame weighed down
      Bb      *     C   F
  Now scornfully surrounded
       Dm            A7   Dm
  With thorns, Thine only crown
      C         Bb       F *
  How pale thou art with anguish
       Bb    *        Dm
  With sore abuse and scorn
      C         F      G  C
  How does that visage languish
        Bb       C         F
  Which once was bright as morn.

       Bb       *          C  F
2 What Thou, my Lord, hast suffered
        Dm      A7       Dm
  T'was all for sinners' gain
       Bb       *        C   F
  Mine, mine was the transgression
      Dm        A7     Dm
  But Thine the deadly pain
      C      Bb       F *
  Lo, here I fall, my Saviour
       Bb  *         Dm
  'Tis I deserve Thy place
       C     F        G C
  Look on me with Thy favour
       Bb      C      F
  Vouchsafe to me Thy grace.

       Bb       *       C  F
3 What language shall I borrow
     Dm          A7      Dm
  To thank thee, dearest Friend
      Bb        *     C  F
  For this, thy dying sorrow
      Dm   A7       Dm
  Thy pity without end?
      C       Bb      F *
  Oh, make me thine forever
      Bb       *        Dm
  And should I fainting be
        C      F      G C
  Lord, let me never, never
     Bb      C       F
  Outlive my love to thee.

     Bb        *    C F
4 Be near when I am dying
       Dm       A7       Dm
  Oh, show thy cross to me
      Bb     *       C  F
  And for my rescue, flying
        Dm        A7     Dm
  Come, Lord, and set me free!
       C         Bb      F  *
  These eyes, new faith receiving
      Bb    *         Dm
  From Jesus shall not move
     C       F      G  C
  For one who dies believing
      Bb      C           F
  Dies safely, through thy love.
