1  Dear Lord and Father of mankind
         Am      C         D     *
   Forgive our foolish ways
      C          C       D         D
   Reclothe us in our rightful mind
      Em     C           D        Bm
   In purer lives Thy service find
      G        C           D      *    Am      C           G      *
   In deeper reverence praise. In deeper reverence praise.

      G        C           G             G
2  In simple trust like theirs who heard
      Am       C        D  *
   Beside the Syrian sea
         C          C        D       D
   The gracious calling of the Lord
        Em       C           D       Bm
   Let us, like them, without a word
         G        C        D     *       Am      C       G      *
   Rise up and follow Thee. Rise up and follow Thee.

      G          C        G   G
3  O Sabbath rest by Galilee
      Am       C       D     *
   O calm of hills above
            C      C          D             D
   Where Jesus knelt to share with Thee
         Em      C   D     Bm
   The silence of eternity
     G      C        D   *    Am    C       G     *
   Interpreted by love! Interpreted by love!

          G          C          G      G
4  With that deep hush subduing all
         Am          C              D      *
   Our words and works that drown
         C        C          D        D
   The tender whisper of Thy call
       Em         C         D          Bm
   As noiseless let Thy blessing fall
      G         C        D     *     Am       C        G     *
   As fell Thy manna down. As fell Thy manna down.

          G          C         G    G
5  Drop Thy still dews of quietness
