```
          F   *        F7    *
1 I don't know about tomorrow
         Bb  *           F  *
  I just live from day to day
         Bb    *         F       *
  I don't borrow from its sunshine
         G7   *           C   *
  For its skies may turn to grey

         F    *         F7    *
  I don't worry o'er the future
       Bb  *           F   *
  For I know what Jesus said
       Bb *            F       *
  And today I'll walk beside Him
        C    *         F   *
  For He knows what is ahead.

|     Bb    *        F     *
| Many things about tomorrow
|        G7  *        C    *
| I don't seem to understand
|      F   *            Bb    *
| But I know who holds tomorrow
|      C   *             F   *
| And I know who holds my hand.

       F   *           F7      *
2 Every step is getting brighter
        Bb    *         F    *
  As the golden stairs I climb
       Bb      *        F      *
  Every burden's getting lighter
       G7   *          C    *
  Every cloud is silver-lined

          F  *          F7     *
  There the sun is always shining
         Bb  *             F  *
  There no tear will dim the eye

       Bb    *       F      *
  At the ending of the rainbow
         C        *          F  *
  Where the mountains touch the sky.

|     Bb    *        F     *

| I don't seem to understand
|      F   *            Bb    *
| But I know who holds tomorrow

         F   *        F7    *
3 I don't know about tomorrow
        Bb   *        F *
  It may bring me poverty
        Bb *               F      *
  But the one who feeds the sparrow
       G7 *              C *
  Is the one who stands by me

         F   *           F7     *
  And the path that is my portion
       Bb     *             F    *
  May be through the flame or flood
        Bb      *       F      *
  But His presence goes before me
        C      *         F    *
  And I'm covered with His blood.
