O Sacred Head Now Wounded

Key: F Time: 4/4 Tune: PASSION CHORALE

```
    Bb      *          C    F
1 O sacred Head, now wounded
       Dm          A7              Dm
  With grief and shame weighed down
      Bb       *      C    F
  Now scornfully surrounded
       Dm              A7    Dm
  With thorns, Thine only crown
      C          Bb        F *
  How pale thou art with anguish
       Bb     *         Dm
  With sore abuse and scorn
      C          F       G  C
  How does that visage languish
        Bb        C          F
  Which once was bright as morn.

       Bb        *           C  F
2 What Thou, my Lord, hast suffered
        Dm       A7        Dm
  T'was all for sinners' gain
       Bb        *         C   F
  Mine, mine was the transgression
      Dm         A7      Dm
  But Thine the deadly pain
      C       Bb        F *
  Lo, here I fall, my Saviour
       Bb  *           Dm
  'Tis I deserve Thy place
       C     F         G C
  Look on me with Thy favour
       Bb       C       F
  Vouchsafe to me Thy grace.

       Bb        *        C  F
3 What language shall I borrow
     Dm           A7       Dm
  To thank thee, dearest Friend
      Bb         *     C  F
  For this, thy dying sorrow
     Dm    A7       Dm
  Thy pity without end?
      C        Bb       F *
  Oh, make me thine forever
      Bb        *         Dm
  And should I fainting be
        C       F       G C
  Lord, let me never, never
     Bb       C        F
  Outlive my love to thee.

     Bb         *    C F
4 Be near when I am dying
      Dm        A7        Dm
  Oh, show thy cross to me
      Bb      *        C  F
  And for my rescue, flying
       Dm         A7      Dm
  Come, Lord, and set me free!
       C          Bb       F  *
  These eyes, new faith receiving
      Bb    *          Dm
  From Jesus shall not move
      C        F       G  C
  For one who dies believing
      Bb       C            F
  Dies safely, through thy love.
